## 1 HOUR FUN ENVIRONMENTAL AWARENESS FOR KIDS

An interactive environmental educational "fun"-shop teaching children the value and importance of trees.

We come to your school or garden club and talk about trees, how to grow them, how to plant a tree and how to care for them.

The session involves a theoretical and practical experience.

Theoretical:

- How to grow & care for trees.
- The importance of trees in our community and world.
- Identifying certain key characteristics in trees.

Practical:

- An experience of planting a tree seed and watching it grow over time.
